

Sample Request for Proposal (RFP)

AI-Powered Workflow Automation System

1. Introduction

1.1 Purpose

ABC Solutions Pvt. Ltd. invites qualified vendors to submit proposals for the design, development, deployment, and maintenance of an AI-powered Workflow Automation System. The goal of this project is to automate repetitive business operations, improve efficiency, and enhance reporting and decision-making.

1.2 Organization Overview

ABC Solutions Pvt. Ltd. is a mid-sized technology company specializing in business process consulting and software services. The organization manages multiple internal workflows related to HR, operations, client management, and reporting.

1.3 Project Objectives

The objectives of this project are:

- Automate repetitive manual tasks.
 - Reduce operational time and human errors.
 - Improve workflow tracking and reporting.
 - Integrate AI-based document processing and summarization.
 - Provide role-based dashboards and analytics.
-

2. Scope of Work

The selected vendor will be responsible for:

2.1 System Development

- Designing the frontend and backend architecture.
- Developing responsive web interfaces.
- Creating APIs and database models.
- Implementing authentication and authorization.

2.2 AI Integration

- AI-powered document summarization.
- Intelligent task classification.
- Automated email drafting.
- Workflow recommendation engine.

2.3 Dashboard and Reporting

- Admin dashboard.
- Employee dashboard.
- Analytics and reporting module.
- Export reports in PDF and Excel formats.

2.4 Deployment

- Cloud deployment.
- CI/CD setup.
- Security and backup implementation.
- Monitoring and logging.

2.5 Maintenance and Support

- Bug fixes.
- System updates.
- Technical support for 12 months.

3. Functional Requirements

The system should support the following features:

Module	Requirements
Authentication	Login, signup, OTP verification, role-based access
Workflow Management	Create, assign, track, and close tasks
AI Assistant	Generate summaries, automate responses
Notifications	Email and in-app notifications
Reports	Generate reports and analytics
Admin Panel	User management and activity tracking

4. Technical Requirements

The proposed system should preferably use:

- Frontend: React.js / Next.js
 - Backend: FastAPI / Node.js
 - Database: PostgreSQL / MongoDB
 - AI Services: OpenAI APIs / LangChain
 - Cloud Platform: AWS / Azure / GCP
 - Authentication: JWT / OAuth
-

5. Deliverables

The selected vendor must provide:

1. Requirement Analysis Document
 2. UI/UX Designs
 3. Source Code Repository
 4. Fully Functional Application
 5. Deployment Documentation
 6. API Documentation
 7. Testing Reports
 8. User Manual
 9. Training Sessions
 10. Maintenance Support
-

6. Project Timeline

Phase	Duration
Requirement Gathering	1 Week
Design Phase	2 Weeks
Development Phase	6 Weeks
Testing Phase	2 Weeks
Deployment	1 Week
Support & Maintenance	12 Months

Estimated Project Duration: 12 Weeks

7. Vendor Qualifications

Vendors should:

- Have at least 3 years of software development experience.
 - Demonstrate experience in AI-based applications.
 - Provide at least 2 similar project case studies.
 - Have expertise in cloud deployment and API integrations.
-

8. Proposal Submission Requirements

The proposal should include:

1. Company Profile
 2. Technical Proposal
 3. Project Methodology
 4. Team Structure
 5. Timeline and Milestones
 6. Cost Breakdown
 7. Previous Work Samples
 8. Support and Maintenance Plan
-

9. Evaluation Criteria

Criteria	Weightage
Technical Expertise	30%
Relevant Experience	20%
Cost Effectiveness	20%
Project Timeline	15%
Support and Maintenance	15%

10. Budget

Estimated Budget Range: INR 5,00,000 – INR 10,00,000

11. Terms and Conditions

- All submitted proposals will remain confidential.
 - The organization reserves the right to reject any proposal.
 - Intellectual property developed under this project will belong to ABC Solutions Pvt. Ltd.
 - Vendors must comply with data security and privacy regulations.
-

12. Contact Information
